

During an educational visit to the Weldon Spring Site instructors are encouraged to choose from our list of indoor/outdoor activities to further enhance their students' learning experiences. Our staff can handle up to 150 students at a time. Generally, we rotate students through three or four different activities during their visit to our facility. A normal visit for students lasts approximately 2-3 hours. Students are also welcome to bring a sack lunch and enjoy sitting in one of two picnic areas, our 8-acre Missouri native plant education garden, or near our 150-acre Howell Prairie. Because we seek to give students the best possible experience during their visit to the Weldon Spring Site, we strongly recommend instructors reschedule their visit in the event of poor weather conditions.

Sample Agenda

Weldon Spring Site Educational Tour Sample Middle School

Month, Day, Year

10:00-10:15 AM Informational briefing on the past, present, and future of the Weldon Spring Site (all students)
